REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The process and apparatus combination including the electrodialysis steps treatment with the electrodialysis having a univalent anion-selective membrane, and univalent cation-selective membrane, allowing the separation of a predetermined salt, e.g. sodium chloride, free from divalent cation salts. The apparatus arrangement including the electrodialysis with the particular membranes and further arranged to the nanofiltration membrane as claimed is not suggested as whole in the prior art of record. As result of the particular arrangement different salts composition can be obtain from the process, which are different from the salt composition of the prior art electrodialysis. Further support of allowability is found in Applicant's remarks of 1/13/06, and a Declaration received on the same date.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The amendment of 3/28/06 was a response to a proposed Examiner's amendment discussed on 3/24/06 with Mr. Reley.
